

## Working with a partner in my class

My name is \_\_\_\_\_ and I am in year \_\_\_\_\_.  
I am really good at working in my classroom now.  
My teachers are very pleased.

Sometimes my teacher wants me to do a task with another child in my class. This is called working with a partner.

Working with a partner means that there are two people with ideas and they have to decide how to use both ideas in their work. It is a good idea to have some working with a partner rules.

My Partner today is \_\_\_\_\_

## Partner rules

1. Take turns to speak. Do good listening when your partner is talking.
2. Write down what each person's ideas are.
3. Choose one idea to start with. Sometimes this is your idea, sometimes it will be your partners idea. This is good partner work.
4. Make a plan of what you will do first, next and then. Write it down and follow the plan.
5. Take turns to do things or decide which part you will do and which part your partner will do. Don't forget to share out the work equally!
6. Do the work.
7. Put it together.
8. Be proud and pleased at your finished work and that you did great partner working.
